

Sport Cars

David Molina

Sport cars are thrilling! Sport cars are so amazing because of their speed, looks, and how the motors roar. If you want to read about sport cars, read along!

Ferrari

A mid-engine Berlin Etta is the Ferrari Enzo. It was built in 2002 using formula one technology such as a carbon-fiber body and then changed in 2012. It goes 300 miles per hour. But it's very expensive; it costs \$1.1 million! But in 2005 they made a new power plant.

Lamborghini

A V10 6 speed car is a Sesto Elmo Lamborghini. It is a concept car and also has carbon fiber with a speed of 285 miles per hour! But it costs 1.7 million.

Porsche

The Porsche Carrera GT is also a mid – engined sport car. The car was made by Porsche in 2004-2007, and only 1,270 were produced. In fact, 1,500 cars were planned, but unfortunately only 1,270 were produced. It costs \$440,000, and the car goes up to 205 miles per hour.

Bugatti

The Bugatti Veyron was first introduced in 2005. Its also a mid-engined grand touring car, manufactured by French mark Bugatti. The super short version of the Veyron is the fastest street-legal production car in the world, with going up to speed to 268 miles per hour. But it's very expensive; it costs \$1,500,000.

Audi

A fourth generation coupe sport car is the Audi S5! The Audi is a high performance convertible car! It goes up to speeds of 155 miles per hour. It is a 4-wheel-drive car and expensive. It costs \$120,000,000!

All About Me

I'm a 9-year-old boy who lives in Greensboro.

My name is David Molina.

I love cars so much; that's why I wrote the story. They're so thrilling and fast!
