

# Skylanders

by Joseph Essa

I love to play on my Nintendo 3DS. A Nintendo 3DS is a mini computer that you can play games on. It is small and comes in many different colors, such as blue, red, yellow, black, pink and purple. The Nintendo comes with a free game already on it. The game is called Face Raiders, and it lets you take a picture of your face. It makes a little guy; then you have to shoot him.

My favorite game to play is called Skylanders. The point of the game is to free the five kings from Hektore.

There are thirty Skylander characters in all. They have different powers, such as magic, fire throwing, melting into lava, shooting fire arrows, and fighting with swords. Some of the characters are weak, and some are strong.

While you're playing the game you have a "Portal of Power." It looks like a little round circle with signs on it. You also have little characters, like the characters in the game. When you put a character on the portal, he appears in your game!

There are ten levels. In every level, you get a crystal. A crystal helps you get to other levels. The hardest level is the undead level.

There are two challenges in each level. The characters use their stabber swords, spike ball tails, trigger guns, and water guns to fight the evil minions. When you defeat the minions you jump into the portal and you have passed part of the level. There are five sections to each level. During each level, you may find a key. You use the key to free the king at the end of each level.

I like playing Skylanders because it has action and is fun.

Skylanders is an awesome game! The characters are full of action and power. The levels are challenging and take the characters to cool worlds. Some of the characters have funny faces and do actions that make you laugh. I hope have the chance to play this game!

# All About the Author

Hi, my name is Joseph David Essa. I am a 9-year-old boy, and I live in Greensboro, North Carolina, in the United States of America. I live with my mother, father, one sister, and two brothers. My friends and family say that I am silly and very funny.
